Note: On average, local community colleges receive approximately 22.1% of their operating funds from the State. A portion of the assumed cost for the Baltimore City Community College shown above would have been covered through existing State funding formulas for local community colleges. In addition, Baltimore City's share of police aid funding was reduced significantly beginning in fiscal 1992 due to the State assumption of the Baltimore City Detention Center. In fiscal 1991, Baltimore City received \$37.7 million in police aid, which represented 45.9% of total State funding for police aid in that year.

<sup>1</sup>The BRFA of 2013 modified the disparity grant formula by establishing a minimum grant amount based on local income tax effort of eligible counties. Eligible counties with at least a 2.8% local income tax rate receive at least 20% of the total formula amount. The minimum grant amount increases to 40% of the total formula amount for eligible counties with at least a 3.0% local income tax rate and 60% for eligible counties with a 3.2% local income tax rate.

<sup>2</sup>Eligible counties receive the greater of either the fiscal 2010 grant amount (cap amount) or the minimum grant amount based on local income tax effort (floor amount).

Note: Eligible counties receive the greater of either the fiscal 2010 grant amount (cap amount) or the minimum grant amount based on local income tax effort (floor amount). The net effect of floor amount shows the additional funding that the jurisdiction will receive due to the minimum grant amount (floor amount).

Note: Chapter 1 of the 2012 special session shifted teachers retirement costs to the local boards of education and required county governments to provide equivalent funds to the local boards above the required maintenance of effort. Other legislation passed at the special session enhanced county income and recordation tax revenues, in part, to offset these additional costs.
